

Frog Puppet Paper Plate Craft

We had loads of fun playing with this frog puppet. I must admit that I hogged him quite a bit. You'd be amazed at how much better children listen when the frog tells them to clean up a mess than when mommy asks them to. *grin*

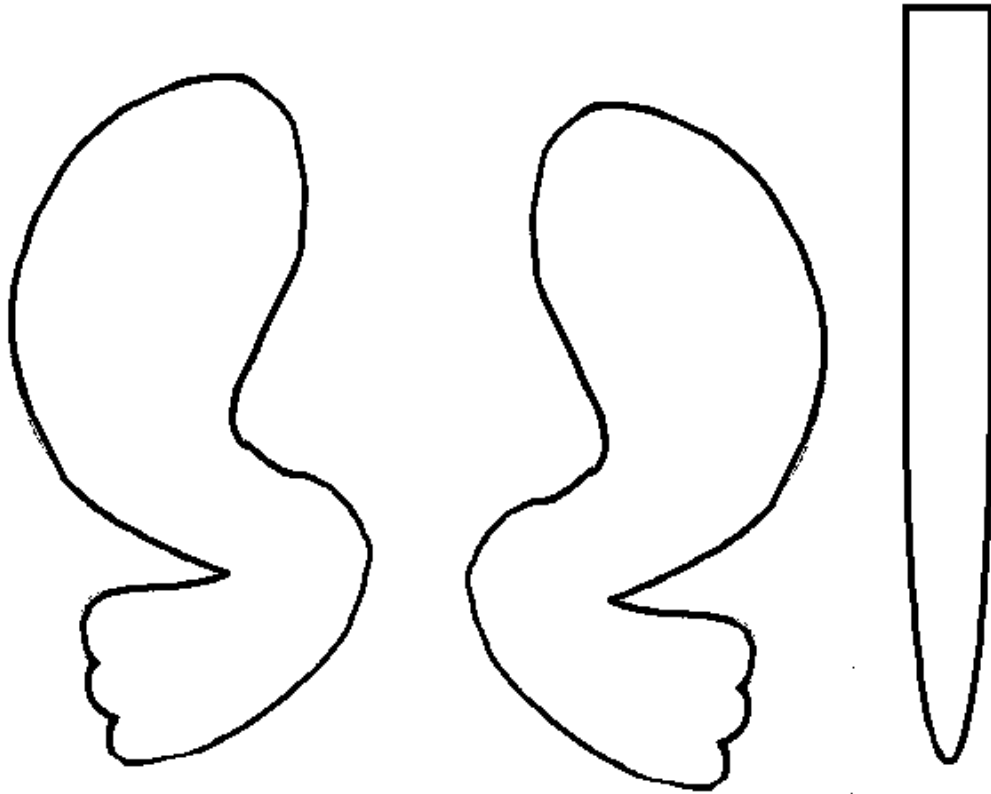

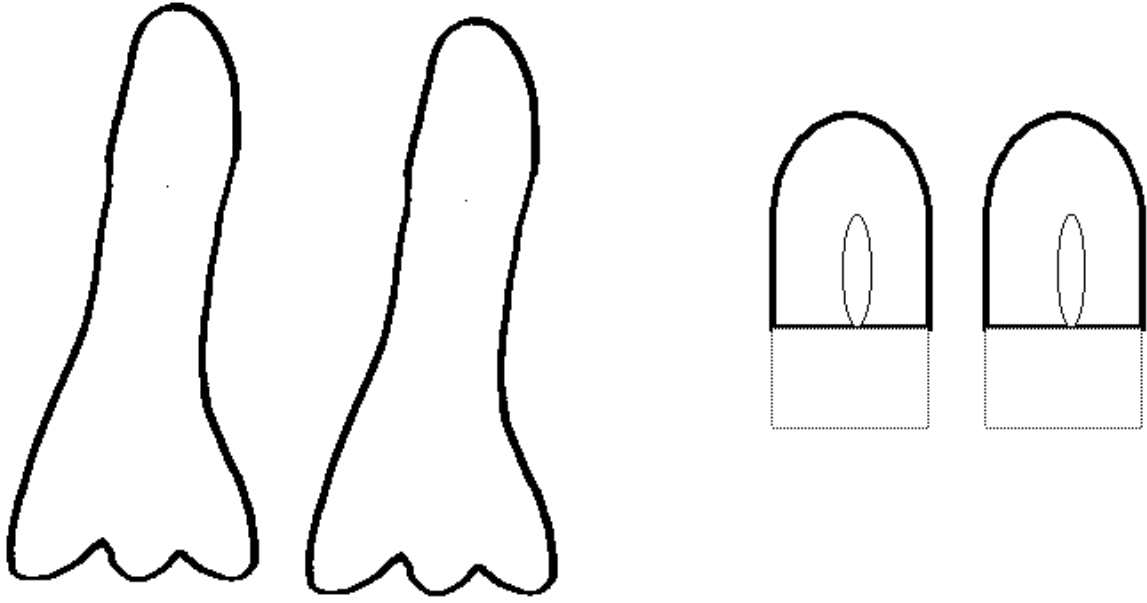

Materials:

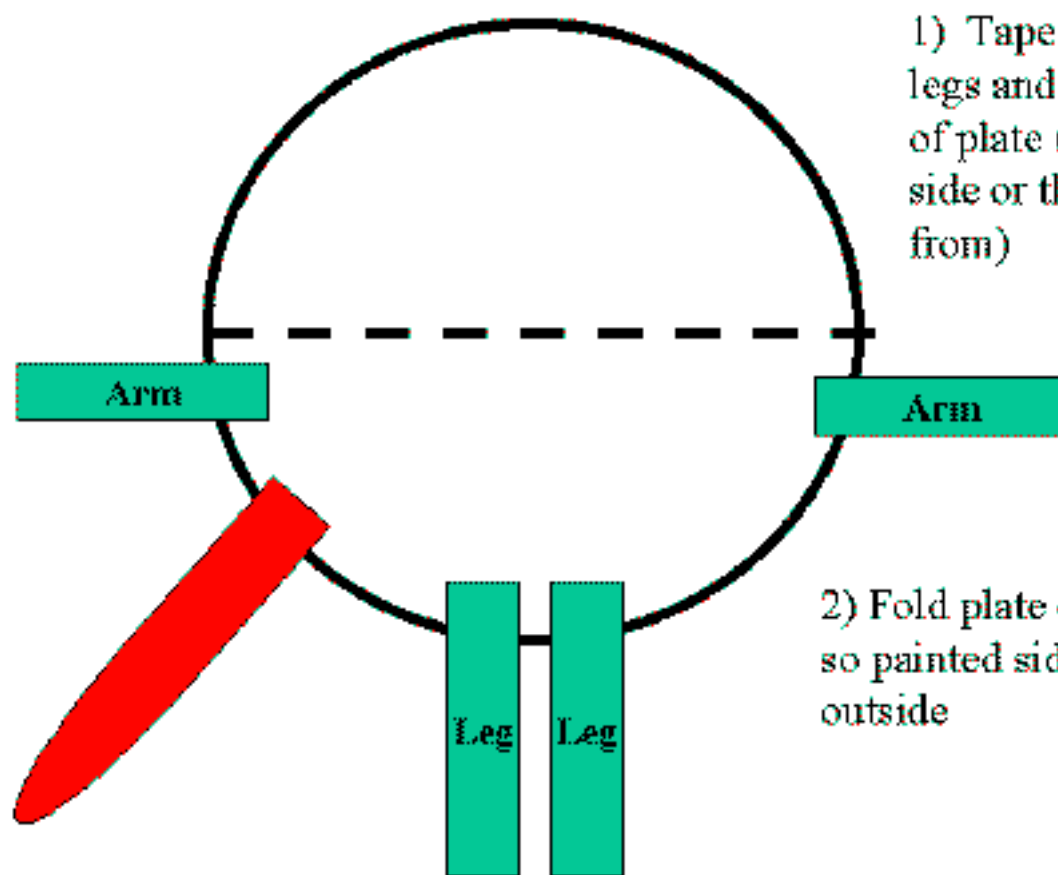

- large paper plate,
- green tempera paint,
- a printer,
- something to colour with,
- scissors,
- glue,
- paper

Instructions:

- Paint the plate with green tempera paint and set aside to dry.
- Print out the template of choice.
- Colour (where appropriate) and cut out the template pieces.
- Once the plate is dry, glue the legs to the bottom and the arms on the sides.
- Fold the plate in half and crease (the arms and legs should both be on the bottom half of the plate).
- Glue the eyes onto the top of the plate.
- Glue the tongue into the inside of the plate (mouth). Curl the tongue with a pencil to make it more frog-like.

1) Tape or glue tongue, legs and arms to inside of plate (the unpainted side or the side you'd eat from)

2) Fold plate on dotted line so painted side is on the outside

3) Once folded, tape or glue eyes to outside of plate (outside is the painted side or the side you'd set on the table)
